Electrolux Dishwashing

Medical Line Hood Type

The Electrolux Dishwashing range is produced for customers with the highest conceivable demands for good efficiency, economy and ergonomics for dishwashing operation. The product range comprises glasswashers, undercounter dishwashers, hood type dishwashers, rack type dishwashers, flight type dishwashers and pot and pan washers. The hood type dishwasher range consists of units with different voltages and has a capacity of 17 baskets per hour. The model has an insulated hood and automatic hood lifting.

SANITIZATION AND **PERFORMANCE**

- The atmospheric boiler combined with the rinse booster pump for perfect rinsing performances in terms of quality, high water temperature and pressure, always constant at 84°C during rinsing phase, independent from the water pressure of the network (with a minimum of 0.5
- 4 second (variable) pause after washing and before rinsing ensures that no drops of unclean water will fall on the clean items at the end of the rinsing cycle.
- 4 different dishwashing cycles: glass and lightly soiled items (1st cycle of 210 seconds), standard soiled items (2nd cycle of 270

- seconds), heavy soiled items (3rd cycle of 390 seconds) and the continuous program.
- Simple control panel with digital thermometers, indicationg both wash & rinse temperatures, rinse aid dispenser.
- Electronic board with digital display incorporating fault diagnosis system, number of cycles counter and number of drain cycles counter.
- Thermal disinjection thanks to the special rinsing condition of 30 seconds at 85°C, measured on the items in the basket (not in the boiler) in order to meet strict hospital requirements.
- Double skinned insulated hood ensures a low noise level and a reduction in heat loss from the machine.

• Fault auto-diagnosis system.

HYGIENE AND RELIABILITY

- Large deep drawn wash tank and internal wash area with round corners and no pipes to avoid dirt
- Easily removable washing and rinsing arms, filters and rack support.
- All the machines have smooth surfaces and a wash tank with rounded corners to facilitate cleaning.
- Safety devices prevent the hood from suddenly closing in case of spring breakage, thus avoiding operator injury.

- The fully automatic self-cleaning cycle avoids the risk of bacteria proliferation.
- The self-draining wash pump and the boiler facilitates the evacuation of stagnant water after long periods of inactivity to ensure a higher level of hygiene.
- Load bearing frame height adjustable feet, hood, tank, washing and rinsing arms, jets and screws in 304 AISI stainless steel to ensure long term reliability.
- High efficiency air gap (class A) in water inlet circuit to avoid water being siphoned back into the network as a result of a sudden drop in main pressures.
- 304L stainless steel boiler with higher welding protection improves the resistance against corrosion by chlorinated water.
- PVC water supply hose with metal connections resistant to high water pressure.
- The IPX5 water protection.
- Pre-arranged for on-site HACCP implementation and Energy Management device.

FLEXIBILITY AND ERGONOMICS

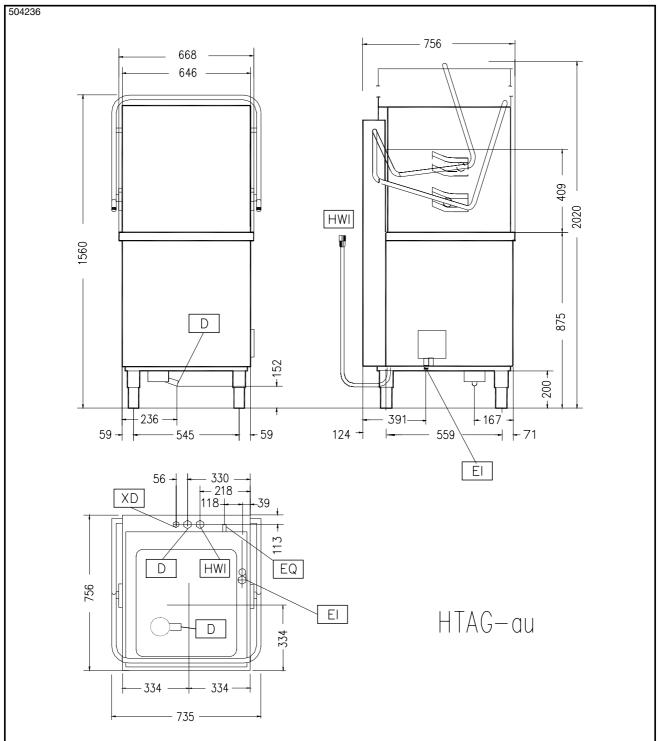

- The incorporated Soft Start feature offers additional protection to delicate items such as glassware and crockery and increases wash pump reliability.
- Suitable to be connected to specific pre-wash tabling, service entry and exit tabling and roller conveyor tabling – included in Electrolux Professional Handling System range.
- More ergonomic operation thanks to the Automatic hood lifting, with a button on the control panel to close the hood which will automatically open when the cycle finishes.
- Open hood on the back side to prevent steam blasts to the operator.
- All machines are pre-arranged to accept external dispensers.

EASY ON THE ENVIRONMENT

- 97% recyclable by weight.
- CFC free packaging.
- Low noise level.
- Developed and produced in ISO 9001 and ISO 14001 certified factory.
- In compliance with **((** requirements.
- * Duration cycles: declared actual cycle duration times can extend when water supply temperature is lower than indicated.
